The Free Arm and Small Hoops Make it Easy to Embroider in Tight Spaces.

The Alliance single-needle, free-arm machine lets you embroider easily in tight quarters and even on three-dimensional projects. Its narrow arm and specially designed small hoops and frames take your embroidery places not possible with other machines—inside pockets, embroiderable stuffed animals, even shoes!

The Alliance doesn't compromise on creativity either. With 4-spool staging, 125 built-in designs and 25 fonts to choose, as well as superior stitch-reading capacity, this machine is one you'll never outgrow.

Single-Needle, Free-Arm Embroidery

With its single needle and free arm, the Alliance is built to embroider items and three-dimensional spaces that are difficult for typical embroidery machines, such as inside pockets, embroiderable stuffed animals, or even shoes.

Needle Beam for Embroidery

The Needle Beam highlights your needle position so you know exactly where your embroidery will start. That means perfect placement every time.

TruView™ LCD Color Touch Screen

This high-definition TruView LCD color touch screen brings your embroidery designs to life. It displays more than 260,000 colors, providing a bold and vivid image to aid the embroiderer in editing and perfecting each design.

Quick-Set, Built-in Bobbin Winder

The Alliance bobbin system includes an automatic bobbin winder with an independent motor. The winder seat holds the thread in place and stops automatically when the bobbin is full.

Embroider at 1,000 SPM

Embrace larger, multicolored designs and watch them stitch in no time! The Alliance reliably works up to 1,000 stitches per minute.

Large Embroidery Field

In addition to its ability to negotiate tight spaces, the Alliance can expand its reach to an 8" x 8" hoop, giving the dedicated home embroiderer or business startup room to create.

Automatic Needle Threader

Get the stitching started with worry-free threading. The automatic needle threader puts your thread through the needle so you are ready to begin stitching.

2 USB Drives (1 Type A, 1 Type B)

Use USB connectivity to quickly import designs to your machine from a computer, flash drive or CD-ROM drive. The Alliance USB drives support multiple design software formats.

Convenient Bobbin System

This front-loading bobbin system with a vertical hook makes bobbin changes a cinch. You never have to remove your embroidery hoop.

Multi-line Text & Justification

Now you can create multiple lines of text quickly and easily, without the need for constant rehooping. Plus, you can center or justify your text alignment to get precisely the look you desire.

25 Built-in Fonts

25 built-in, editable fonts to help you make every project unique, including a Large Floral Alphabet, Greek Letters, Large Appliqué Alphabet, and a Baby Lock exclusive font.

Included Hoops

The Alliance comes with six embroidery hoops, ranging from the nimble 1-1/2" x 1-3/4" hoop all the way up to 8" x 8".

1-1/2" x 1-3/4" Hoop

1-15/16" x 2-15/16" Hoop

1-5/8" x 2-3/4" Hoop

2" x 2" Hoop

8" x 8" Hoop

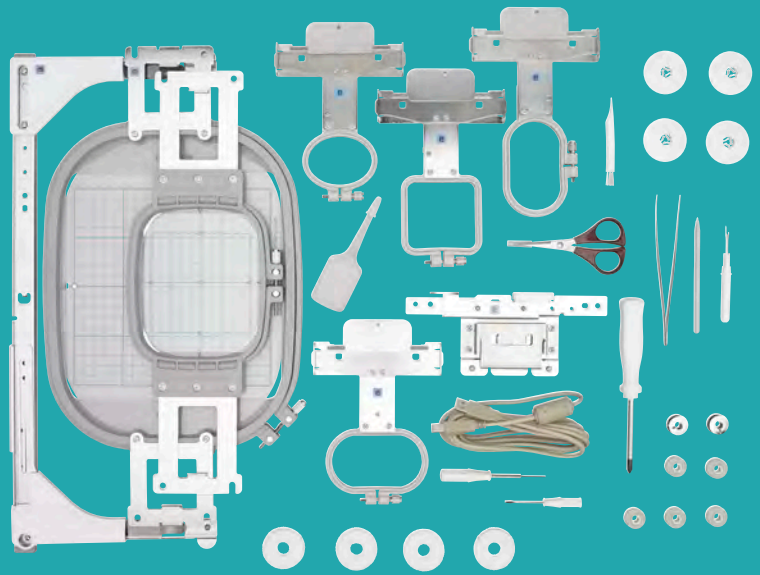

4" x 4" Hoop
